

**UK PSC Study
Pruritus Questionnaire A
(Post-Transplant patients)**

SECTION 1: ITCHING

- 1. For some people with PSC, itching affects their general health and well-being. BEFORE YOUR TRANSPLANT FOR PSC, did you experience itching caused by the PSC? Please tick the box which describes you best.**

I <i>never</i> experienced itching from my PSC	
I <i>only rarely</i> experienced itching from my PSC	
I <i>occasionally</i> experienced itching from my PSC	
I <i>frequently</i> experienced itching from my PSC	
I experienced itching from my PSC <i>all the time</i>	

- 2. BEFORE YOUR TRANSPLANT FOR PSC, did you experience any of the following? If you did not itch, please tick the box, 'does not apply'**

	Never	Rarely	Occasionally	Frequently	Always	Does not apply
Itching disturbed my sleep						
I scratched so much, I made my skin raw						
I felt embarrassed because of the itching						

3. Intensity of itching BEFORE YOUR TRANSPLANT FOR PSC

On a scale of 0 to 10, where 0 is no itch and 10 is unbearable itch, how would you rate the worst itching you ever experienced BEFORE YOUR TRANSPLANT FOR PSC?

Worst itch before your transplant for PSC: _____ / 10

- 4. Please also place a mark on the visual analogue scale below, indicating the worst itch you ever experienced BEFORE YOUR TRANSPLANT FOR PSC:**

No itch

Unbearable itch

5. BEFORE YOUR TRANSPLANT FOR PSC, did you ever received any of the following treatments for itching? Please tick any of the options which apply to you.

	Yes
Cholestyramine ('Questran')	
Rifampicin	
Naltrexone	
Phototherapy ('light treatment')	
Admitted to hospital specifically for treatment of itching	
Other medications, including natural remedies (please state which in the space below):	

6. Has your doctor told you that you suffer from any of the following skin disorders?

	Yes	No
Eczema (or atopic dermatitis)		
Psoriasis		
Urticaria ('hives')		

THERE ARE NO MORE QUESTIONS. THANK YOU FOR COMPLETING THE QUESTIONNAIRE.
